Career Objective

I am a front-end developer and also a MERN stack developer. I am a quick learner and eager to learn new technologies. I believe in hard work and efficiency. I always like to learn new things and have experience with new things. I am always ready to prove myself through my work and responsibility.

SKILLS Experts

Experts: HTML, CSS, Tailwind CSS, Daisy UI, Bootstrap, React, React Router, Javascript, ES6, NextJS.

Comfortable: Firebase authentication, Node.js, Express.js, MongoDB, JWT.

Familiar with Material UI, Next.JS, Axios, and Stripe.

Tools: Git, VS Code, Chrome Dev Tools, GitHub, Netlify, Firebase.

Projects

PeakFit- This is the fitness (gym center) website.

[Live Website](#) || [Github Client](#) || [Github Server](#)

- This is a gym center website with two types of user roles – regular clients and trainers (admin users).
- Different user roles have different access. Trainers can offer their services, and clients can purchase those services to improve their fitness.
- For authentication, both trainers and clients can log in or sign up using Google or email.
- Trainers and clients have different activities and can control their services through dedicated dashboards.
- There is a separate trainer panel where trainers can manage and customize their services.

Demo Trainer Login:

- ❖ **Email:** Admin02@gmail.com
- ❖ **Password:** Admin02@

Technology: tailwind CSS, Daisyui, React JS, Firebase, Node JS, Express JS, MongoDB.

LuxeStayRetreat - This is a resort and Luxury Hotel Room booking website.

[Live Website](#) || [Github Client](#) || [Github Server](#)

- LuxeStayRetreat offers a smooth booking experience for luxury hotels and resorts. It features elegant rooms, premium facilities, beautiful views, personalized services, and a hassle-free reservation process.
- For authentication, users can log in or sign up using their email.
- There are 3 user roles:
 - Admin** – Can manage all users.
 - Host** – Can upload, manage, and delete their listings.
 - User** – Can view all listings and book rooms.

Demo Admin Login:

- ❖ **Email:** Admin02@gmail.com
- ❖ **Password:** Admin2@

Technology: Tailwind CSS, Daisyui, React JS, Firebase, Node JS, Express JS, MongoDB, JWT, Stripe.

FlavorCrave restaurant - This is a restaurant website.

[Live Website](#) || [Github Client](#) || [Github Server](#)

- This is a restaurant website where users can create an account and order their favorite food online.
- For authentication, users can sign up or log in using Google or email.
- Both admins and users have different dashboards and features.
 - ❖ **Admins** can manage the entire website, food menu, and users, including deleting users if needed.
 - ❖ **Clients** can browse the menu and place food orders.

Demo Admin Login:

- ❖ **Email:** Admin02@gmail.com
- ❖ **Password:** Admin2@

Technology: tailwind CSS, Daisyui, React JS, Firebase, Node JS, Express JS, MongoDB.

Experience

- **Frontend Developer (Intern)**

NNO Organization

January 2023 – June 2023

Worked as a front-end development intern for 6 months. I focused on building and improving user interfaces using modern web technologies. This experience helped me strengthen my skills in HTML, CSS, JavaScript, and React.

- **Data Entry Operator**

ElectroHome

March 2022 – February 2023

Worked on a 1-year project focused on **Library Automation Systems**. My responsibilities included data handling, organizing records, and supporting the automation process to improve library efficiency. This was a paid project-based role.

Education

- **Higher Secondary Certificate (Science)**

Hajiganj Model Government College

February 2021 – May 2023

- **Bachelor in Computer Science and Engineering (CSE)**

Daffodil International College

August 2024 – Ongoing

Certifications

- Web Development Bootcamp – Programming Hero
- Frontend Development Training – NNO Organization (Internship)

Languages

- **Bangla** – Native
- **English** – Proficient (Spoken & Written)
- **Hindi** – Proficient (Spoken)
